

Lease Accounting In OneStream

Enable your finance team to spend more time on analysis

The new IFRS and ASC lease accounting standards add a new layer of complexity to your financial data and reporting requirements. The AMCO Lease Accounting Solution, available in the OneStream Partner Solutions, is a solution that automates the whole process for timely and efficient reporting processes.

Utilise the AMCO Lease Accounting Solution to either enable your organisation with the transition to IFRS 16 and/or ASC 842 or upgrade to our OneStream-based solution to enhance existing lease accounting processes and reporting.
