

AMCO Solution Placeholder (SOPL)

AMCO SOPL is an in-house-built accelerator for OneStream that streamlines the development of custom dashboard solutions.

It provides a standardized, ready-to-use framework that:

- **Accelerates build time** with pre-configured dashboard components
- **Ensures consistent design** across AMCO solutions
- **Improves usability** through unified formatting and navigation

What It Includes

- A structured dashboard framework ready for customization
- Built-in workflow controls
- Standardized design, icons, and formatting
- Integrated security setup
- Help and support structure
